

# The Goddard School Welcomes Robots to Ease Operations

Goddard School Hires a Robot to Streamline Operations and Improve Satisfaction

A forward-thinking Goddard School turned to PHHS robotic technology to support their staff, improve efficiency, and explore leading-edge technology in education.

## Goddard's Challenges & Goals

### Support an over-tasked staff

The school had one kitchen employee to prepare and deliver meals and snacks to each classroom.

### Find operational efficiencies

The owners wanted to automate processes with technology to support its growth.

### Be a tech-forward school

The school wanted to be known for using advanced technology.

## Prospera Health & Hospitality's Seamless Implementation Process

PHHS followed our standard processes for introducing robotics to schools:

### Step 1: Consultation

Assess challenges and opportunities to identify the perfect robot for the school

### Step 3: Assessment

Program and adjust routes according to school's layout and needs

### Step 2: Implementation

Deliver and provide on-site support for one week

### Step 4: Ongoing Support

Provide continued support to ensure a seamless integration

## Outcomes & Impact

- + More efficient processes free up time for staff members to focus on valuable tasks
- + Less stress and greater employee satisfaction
- + Employees experience reliability and consistency, as the robot operates on a dependable time schedule
- + Students, parents, and teachers remain impressed by the school and its innovative approach

"Before Casper the robot joined our school, our kitchen employee might be heating up 30-40 lunches before she would be on her way to start distributing those. With Casper, we have streamlined the process. She completes one room's meals and sends Casper on its way. By the time she is ready for another [round], Casper comes back to take the next delivery."

- Rahul Jain, Goddard School Franchise Owner

## Prospera Health & Hospitality: A Trusted Partner for Educational Institutions

PHHS has the experience and expertise to support educational institutions with solutions that include:

- + Robotics to ease the burden of overstretched custodial and operations staff
- + Automated technology for cleaning and disinfecting surfaces like bathrooms, cafeterias, and classroom floors
- + Food and supply delivery robots to streamline operations
- + Best practice recommendations and training on: cleanliness, sanitation, food safety and more

Let's start a conversation today focused on your goals and discover how Prospera Health and Hospitality can help your school or business flourish.

## Affordable Custom Robotic Solutions to Improve Health, Satisfaction, and Operations

Schools and educational facilities have significant needs when it comes to logistics and operations. Essential responsibilities such as maintaining frequent and thorough cleanings and running food and supplies to classrooms are imperative to minimize the spread of infectious disease and ensure all processes run smoothly.

However, these groups often don't have the staffing capacity to meet the high demand. PHHS provides robotic solutions and cleaning products that can help ease the strain on staff while maintaining cleanliness and efficiency. The result is a happier, healthier environment for everyone.

PHHS is a sister company to Prospera Hospitality with over 20 years of experience. Our commitment to excellence is reflected in the rigorous research and evaluation process we undertake before offering a product.
